PRIZE DRAW

WIN!

SEVEN PINHEAD BIKE SECURITY FOUR-PACKS WORTH £60 EACH

'Installing Pinhead skewers to your bike makes a lot of sense... I couldn't get a grip on them.' So said security expert Gary Zanco in the last issue of Cycle, after we gave him a set to attack. This is the guy who broke open every bike lock we presented him with, in no more than 42 seconds, for our locks feature last year. The Pinhead Four Pack thwarted him.

Thanks to 2pure, we've got seven sets of these thief-proof components to give away. Each Pinhead Four Pack comprises: front and rear wheel skewers; seat binder bolt; stem top cap. That means your wheels, seatpost, forks and stem are locked safely in place.

You can remove them as easily as you would with a quick release, however, thanks to a unique key with thousands of combinations. One key opens each set. If you lose your key, don't worry: so long as you've registered it online, you can get a replacement.

The locking skewers are only a few grams heavier than the bolts and quick releases they replace. So there's no reason not to fit them to any bike, however lightweight, that will ever be left out of your sight. The only remaining question is: which Pinhead pack do you need? Pinhead Bike Security can be bought in different configurations, from a single headset lock (£29) to the Pinhead Ultimate Pack (£135), which includes everything in the Four Pack as well as a sturdy D-lock that operates with the same Pinhead key.

For more information about Pinhead Bike Security or to find your local stockist visit www.2pure.co.uk or call 0844 811 2001. You can buy Pinhead products online now from the CTC Shop: www.ctcshop.org.uk.
