

Cole Green Way

Temporary closure for resurfacing

14th July for approximately five weeks

The Cole Green Way will be temporarily closed between St Mary's Lane, Hertingfordbury and Hertford Town FC from 14th July for approximately five weeks to enable resurfacing and drainage improvement works to take place. The location of the works is shown on the map below.

These works are part of the agreed Cole Green Way Greenspace Action Plan and the phased resurfacing of the whole route, to improve the surface for all users and enhance drainage.

During these closures there will be no access through the sections affected, to enable the works to be carried out safely. We apologise for any inconvenience caused.
